LC-LC OS2, ATGBICS Fibre Optic Cable, Singlemode, Simplex, Yellow, 1m

[ATGBICS LC-LC OS2, Fibre Optic Cable, Singlemode, Simplex, Yellow, 1m:](#)

This product is high quality Simplex LC-LC (male to male) Fibre Patch Cable. Simplex Fibre is most often used for applications that only require one-way data transfer. LC connections allow higher density applications based on its smaller diameter. This is a single mode cable which renders it very stable as they are only thick enough to carry one wave of light. This eliminates distortion caused by overlapping light signals. The OS2 cable is used for high speed data transfer. The OS2 cable has a core size of just 9 microns and the diameter of the outer cladding is 125 microns. Our products are rigorously tested and we proudly offer a compatibility guarantee and lifetime warranty.
